Miro illuminates San Jose with Digital Art

cFire cooperated with various artists and Miro to install and curate a site specific Digital Art Gallery at Miro flex space.

The digital art will feature thought provoking works from artists Zheng, Chongbin, Lynchini, Michelle Grenier and Peter Sapienza. cFire provides a library of unique digital video art created by an affiliated network of artists specifically for use on any architecture- scale screen or surface, for places and events.

Zheng, Chongbin

Is an Artist and cFire Artistic Director shifting perspectives by sculpting light and space, using traditional studio media and new technologies.

Michelle Grenier

Is a Northern California based photographer, video production artist, creative director, location scout, and an astute observer of the natural world.

Lynchini

Is a California based multidisciplinary artist working in digital media as well as metal, specifically 24K gold and fine silver.

Peter Sapienza

Is a Bay Area California based photographer,
videographer and enthusiast of nature and many outdoor sports.
